Auto Faucet®

# Auto Faucet®

with Surround Sensor™ Technology

Auto Faucet sets the standard for reliability and user-friendly performance in automated faucet systems. Surround Sensor™ technology gives you easy, reliable upgrades and trouble-free operation. It's a sound long-term investment, reducing water use up to 70% and delivering positive user satisfaction and health benefits.

**Surround Sensor™**

Surround Sensor Technology creates a 3" omnidirectional sensing zone, guaranteeing activation every time.

**Milano**

**Capri**

**Sienna**

**Verona**

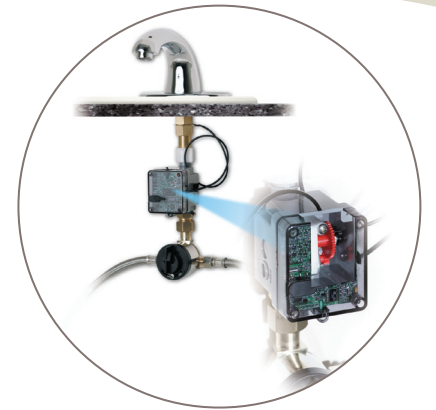

## Improve Health & Wellness

Away-from-home washroom patrons prefer touch-free fixtures and are 50% more likely to wash their hands. Auto Faucet effortlessly provides reliable, touch-free activation every time to encourage, rather than discourage, frequent use and to eliminate this critical touch point of germs in washrooms.

## Sustainable Design

Auto Faucet delivers water only when needed to save up to 70% water savings and earn LEED credits. Auto Faucet systems' dry cam-gear technology requires less energy to operate, providing exceptional battery life for over 400,000 hand washes (AC power option available).

## World-Class Reliability

Patented dry cam-gear technology controls water flow with world-class reliability. The absence of solenoid valves avoids costly repairs and ensures worry-free operation by keeping electronic components separate from water flow.

**Venetian**  
deck-mounted

**Venetian**  
wall-mounted

All models come supplied with an auto open line purge feature that eliminates stagnant water and bacterial growth.
